

JOB SKILL ASSESSMENTS

Selected group of multiple choice, matching, ordered lists, and rational thinking job skills assessment written for client.

Project & Client

- About the Project
 - The client requested the creation of unique assessments which can be used to determine the skill level of prospective employees.
 - The project required research to determine the most valuable knowledge, skills, and abilities and the creation of questions that would identify a beginner, intermediate, or advanced skill level.
- About the Client
 - Interviewed.com helps employers identify the strongest employee for a position through pre-built and custom-built assessment.
 - Assessment options include job simulation, phone interviews, and skills assessments.
